Health Requirements for 2026 Pennsylvania Holstein Association Spring Show:

Pennsylvania Cattle for Exhibition:

- Certificate of Veterinary Inspection (CVI): Pennsylvania cattle must be accompanied by Certificate of Veterinary Inspection signed and dated by an accredited veterinarian with an inspection date within thirty (30) days prior to the date of arrival at the show.
- Cattle Identification Requirements: All cattle for exhibition must be identified by an acceptable form of permanent ID. This includes 840 RFID or HAUSA issued tags. A USDA issued National Uniform Eartagging System (NUES) tag can only be used if applied prior to November 5, 2024. NUES tags are not valid for any animals entering from out of state.
- All animals must be free of evidence of infectious & contagious diseases and a statement of this should be written on the CVI. Animals showing any evidence of contagions, infections or external parasitic disease shall be denied entrance into the show.
- No tuberculosis or brucellosis test is required.
- All animals entering the show should be immunized against IBR, PI3, BVD, BRSV. It is strongly recommended that at least one vaccination against IBR, PI3, BVD, BRSV be given within 30 days of the show. In addition, the use of nasal vaccine (Inforce) is strongly encouraged.
- Rabies vaccination is encouraged but not required.

Cattle Housed Outside of Pennsylvania:

- Cattle housed outside of PA must follow federal and PA state guidelines for interstate transport.
- Please refer to interstatelivestock.com for necessary requirements.

***FYI:** PA and Federal guidelines require all dairy cattle 18 months or older entering PA with a negative Nasal swab for non-lactating and negative milk HPAI tests for lactating animals. If these animals go to an exhibition that is no longer than 10 days, they can return to the original state without retesting.

****PLEASE NOTE:** ALL RULES SUBJECT TO CHANGE IN ACCORDANCE TO FEDERAL AND PENNSYLVANIA STATE REGULATIONS.
