

## Health Requirements for 2024 PHA Shows:

### Pennsylvania Cattle for Exhibition:

- Certificate of Veterinary Inspection (CVI): Pennsylvania cattle must be accompanied by Certificate of Veterinary Inspection signed and dated by an accredited veterinarian with an inspection date within thirty (30) days prior to the date of arrival at the show.
- Cattle Identification Requirements: All cattle for exhibition must be identified by an acceptable form of permanent ID. This includes RFID, HAUSA issued tags, or an Official USDA vet issued metal tags called the NUES tags (National Uniform Eartagging System).
- All animals must be free of evidence of infectious & contagious diseases and a statement of this should be written on the CVI. Animals showing any evidence of contagions, infections or external parasitic disease shall be denied entrance into the show.
- No tuberculosis or brucellosis test is required.
- All animals entering the show should be immunized against IBR, PI3, BVD, BRSV. It is strongly recommended that at least one vaccination against IBR, PI3, BVD, BRSV be given within 30 days of the show. In addition, the use of nasal vaccine (Inforce) is strongly encouraged.
- Rabies vaccination is encouraged but not required.

### Cattle Housed Outside of Pennsylvania:

- Cattle housed outside of PA must follow federal and PA state guidelines for interstate transport.
- Please refer to [interstatelivestock.com](http://interstatelivestock.com) for necessary requirements.

**\*FYI:** PA and Federal guidelines require all dairy cattle 18 months or older entering PA with a negative Nasal swab for non-lactating and negative milk HPAI tests for lactating animals. If these animals go to an exhibition that is no longer than 10 days they can return to the original state without retesting.

**\*\*PLEASE NOTE:** ALL RULES SUBJECT TO CHANGE IN ACCORDANCE TO FEDERAL AND PENNSYLVANIA STATE REGULATIONS.
