2018 PA Holstein Convention Sale
Sale Consignors

February 6, 2018

www.paholsteins.com

Dear Consignor:

Congratulations and welcome to the 2018 PA Holstein Convention Sale, which will be held at the **Solanco Fairgrounds 172 S. Lime St Quarryville, PA on March 3rd**. The PA Holstein staff and members of the South-Central District of PHA, sale co-managers, are very excited about this year's group of consignments. In order for the best possible presentation of your consignment(s) and for a smooth running sale, we ask your cooperation on the following:

- 1) Please test all cattle as soon as possible after February 7th and before February 19th. All consignors, interstate to **2018 PA Holstein Convention Sale, 172 S. Lime St Quarryville, PA. Pennsylvania consignors need to secure a health chart. Identify the animal on health chart with one of these two "Official" identification number types: 840 series tags; i.e. 840003001002911 or state series metal tags; i.e. 23ABC1234**
- 2) **All cattle regardless of age must have a negative TB test within 60 days of the sale.**
- 3) **A negative brucellosis test must be made within 30 days of the sale on all animals.**

**** CATTLE FROM CERTIFIED and ACCREDITED HERDS MUST BE BRUCELLOSIS AND TB TESTED REGARDLESS OF STATUS****

- 4) **All cattle must be tested for BVD** using BVD ACE (Antigen Capture test) or the BVD virus isolation test. Pennsylvania Holstein Association's Board of Directors instituted this policy for the Association's consignment sales. We have found this to be a test that many of our domestic cattle buyers are requesting and feel it will add value to our sale cattle as well.
- 5) All cattle shall have been vaccinated against BVD at least twice during the past six months. The most recent inoculation shall be no less than 15 days and no more than 45 days. BVD vaccine may be part of multivalent vaccine against shipping fever. Consult your veterinarian if necessary.
- 6) It is recommended that consignments be vaccinated in the current year against the respiratory complex (shipping fever), including IBR, not less than 15 days prior to arrival or have been administered a prophylactic dose of hyperimmune IBR - Shipping Fever Serum within 5 days of arrival.
- 7) If your animal(s) is/are calfhooed vaccinated, please note this on the health chart or send the vaccination report with the consignment.

- 8) All consignments should arrive at the Solanco Fairgrounds, on Monday February 26th or Tuesday, February 27th. Keep in mind the sale is on March 3rd, so get your cattle in early so they can look their best by sale day. We are attaching the list of consignors for your reference to possibly combine trucking.
- 9) Please be sure to send the registration certificate and signed transfer with your consignment. **This includes embryo and choice packages, ET forms and signed transfers!** If you prefer, you may mail these to the PA Holstein Office in advance.
- 10) Please send with your consignment, the **DHIA Lactation Transfer Page** for cows with a lactation in progress, or with animals that have completed records. Also, send any updated information such as breeding or freshening dates that do not appear in the catalog.
- 11) Every effort was made to provide accurate, up-to-date information on each consignment in the catalog. Please check the pedigree on your consignment carefully, if any errors or omissions are discovered, please advise sale management.
- 12) If for any reason a lactating consignment has received combiotic or any other antibiotic within a few days of shipping to the sale, please send a report with the animal(s). **This is very important, as milk from these animals must be discarded.**
- 13) **Please clip the head of your consignment.** The sale crew will complete the clipping (shoulders, backs, udders, etc.).
- 14) **All animals should be halter broken and trained to lead.**
- 15) **Sale Commission is 15% of selling price up to \$7500 then 5% up to \$15,000 selling price and 2% on any amount above \$15,001! Checks will be mailed within 30 days of the sale with the EXCEPTION of those consignments that do not have completed paperwork to sale management.**
- 16) Work on building interest in your own consignment and in the sale as a whole, since any help to any individual animal will ultimately benefit the entire sale. If you wish to make a flattering video of your consignment prior to its arrival at the sale please inform Sale Management so it could be utilized in several Online promotion efforts!
- 17) If you wish to receive a printed catalog, **you must request one** from the PA Holstein office at 814-234-0364 or by e-mail: contact@paholsteins.com Catalogs can be viewed on line at www.paholsteins.com and PA Holstein Facebook Page

Thank you for your cooperation, and we hope to see you at the sale.

Sincerely,

David J. Lentz, Director of Sales
Pennsylvania Holstein Association

Katie Shultz
Sale Chairperson

Please use this while your vet is present!!

**2018 PA HOLSTEIN CONVENTION SALE
VETERINARIAN CHECKLIST
TESTING AND VACCINATION WORK**

Please test all cattle between February 7th and February 19th

All cattle must be tested regardless of whether they originated from a certified and accredited herd. Some states do not accept cattle on a certified and accredited basis, so they must be tested!

- Required:** All cattle regardless of age must have a negative TB test within 60 days of the sale
- Required:** A negative brucellosis test must be made within **30** days of the sale on all sale animals.
- Required:** All cattle must be tested for BVD using the BVD ACE or Antigen Capture test or BVD virus isolation. Pennsylvania Holstein Association's Board of Directors instituted this as a policy for the Association's consignment sales. We have found this to be a test that many of our domestic cattle buyers are requesting and feel it will add value to our sale cattle as well.

We **recommend** a Leucosis, Johnes, Neospora, and Anaplasmosis test on your animal, please advise the Sale Management of the results. Several potential buyers for cows and bred heifers have requested negative cattle for these diseases.

PLEASE MAKE A SEPARATE HEALTH CHART FOR EACH CONSIGNMENT!

Identify the animal on health chart with one of these two "Official" identification number types: 840 series tags; i.e. 840003001002911 or state series metal tags; i.e. 23ABC1234
